

## **Clear-Coat Wins a Silver Stevie® Award in 2016 American Business Awards<sup>SM</sup>**

*Maker of Mobile Accessories in Philadelphia earns the prestigious Stevie award*

Philadelphia, PA – May 2, 2016 – Clear-Coat’s RapidCut on-demand manufacturing system for retail stores was named the winner of a Silver Stevie® Award in the Business-to-Business Products category in the 14<sup>th</sup> annual American Business Awards, the nation’s premier business awards program. More than 3,400 nominations from organizations of all sizes and in virtually every industry were submitted this year for consideration.

RapidCut allows retailers to manufacture Clear-Coat screen and full body protection for virtually every device, automatically cutting them on demand within seconds. What used to be thousands of screen protectors and skins being shipped to retailers is now made available at the point of sale with the push of a button. This new system resulted in a massive increase in Clear-Coat’s growth of global mall kiosks, which now operate in 19 countries.

“Overcoming SKU’s proliferation in the aftermarket brings small providers an opportunity,” the judges stated. “This is a very innovative solution with a clear benefit for business owners.”

“Our vision is to challenge the status quo of the mall kiosk industry, by bringing on-demand product manufacturing capabilities into retail and backing them with lifetime guarantees and customer-focused service,” says Eric Griffin, co-founder of Clear-Coat. “We are honored to be presented with the prestigious Stevie Award which validates our efforts, and is a great recognition of our innovative approach.”
